TECHLEAD 187 LLC

CAPABILITY STATEMENT

Tampa, Florida
techlead187.com
nick@techlead187.com

Security-first agentic AI, designed, built, and securely deployed from edge to core for national security and commercial enterprises, with the evidence leadership needs to approve it. A small business registered in SAM.gov and a member of the SOF RACER prototype consortium.

CORE COMPETENCIES

- **Agentic AI engineering:** AI agents, orchestration frameworks, MCP integration, and fine-tuned edge models built for consistency, reliability, and traceability.
- **Secure AI platforms and accreditation:** prompt-injection defense, fail-closed gating, and the measurable evidence that carries a system through ATO and cATO (RMF, IL5, FedRAMP, CMMC, Zero Trust).
- **Cloud-to-edge architecture:** hybrid and multi-cloud (GCP, AWS, Azure), Kubernetes, and infrastructure as code reaching operators in denied, degraded, and disconnected environments.
- **Data, MLOps, and knowledge graphs:** DataOps and MLOps platforms for classified enclaves; knowledge graphs on edge hardware for predictive forecasting.
- **AI adoption and workforce training:** hands-on workshops for every department, spec-driven development, and change management that sticks.
- **GovCon and R&D leadership:** proposals, SOWs, technical designs, and principal-investigator leadership, with every recommendation mapped to ROI.

DIFFERENTIATORS

- **We ship what we advise.** LUCID Agent IDE, a secure-AI application platform with a fail-closed prompt-injection gate on every tool call, runs on local GPUs fully air-gapped, in enterprise clouds, or through CUI and Top Secret-authorized clouds. Also in production: the Tactical GenAI Trainer (202 free modules, 11 curricula) and LUCID Meeting Hub.
- **Accreditation done, not described.** Accredited a U.S. Air Force customer's first Google Cloud enclave at IL5.
- **Operator perspective.** 26+ years of U.S. Army and Army Reserve service; fielded the Army Research Laboratory's first AI translation capability to a 350+ soldier task force in Iraq, 2006.

FOUNDER PROGRAM EXPERIENCE

Program	Customer	Role	Years	Scope
Army Direct to Phase II SBIR: Predictive Logistics	U.S. Army	Principal Investigator		AI agents and knowledge graphs on edge hardware
Next Generation Command and Control (NGC2)	AFC / T2COM	Technical advisor and lead	2023-2025	I Corps and III Corps; Unclassified
Pilot Training Transformation (PTT)	DIU / AETC, 19th Air Force	Tech lead, senior cloud architect	2021-2023	Unclassified, IL5
SITEC I and II	USSOCOM	Senior cloud architect	2016-2021	80,000 users; Unclassified to Top Secret
EITC	USACAPOC(A)	Systems engineer	2010-2011	15,000 users; Unclassified to Secret

Experience of the founder on prime contractor teams before TECHLEAD 187 LLC was formed. These programs were performed by the prime contractors, not by TECHLEAD 187 LLC.

COMPANY DATA

UEI	**CAHQVC6L36K5**
CAGE	**24D23**
SAM.gov	**Active**
Size	**Small business**
Founded	**2026, Tampa, FL**
Clearance	**TS/SCI (founder)**

CONTRACT VEHICLE

SOF RACER consortium member No. 893: prototype Other Transactions under 10 U.S.C. § 4022, managed by GovSignals.

NAICS

541715	R&D, physical and engineering sciences
541511	Custom computer programming
541512	Computer systems design
541519	Other computer related services
541690	Scientific and technical consulting
611710	Educational support services

PSC

7A20	Application development software
7A21	Business application software
7J20	Security and compliance products
7B20	High performance compute
6910	Training aids
AF22	Training R&D, applied research

CERTIFICATIONS

CISSP, Security+, Google Cloud Professional, AWS Professional, Google Generative AI Leader (founder)
